That's your prerogative, I guess.

Nice talking to you. Too bad though, as I think you (and the Feds) would be EXTREMELY interested to know the relationships between your landlord, certain players at WiseDSS, and the coal bosses. And Jones. It goes back a long way, and has little to do with you. You are just the latest squeaky nail they need to pound to keep there operation going.

\$1.00 USD. I won't pay any more than that nominal sum to be removed. I was just following orders, as was "Karl" and Useless, and certainly 11A immunity will shield us. You need to go go after the corporate and non-State actors, as they can be made to pay. Certainly any info I give you can only help you in getting to the bottom of this. All of us involved in dealing with you are in agreement about this. You well know that the people directing this are very wealthy, and it behooves you to affect a quid-pro-quo with us in exchange for vital information. Let me know if this sum is agreeable to you.
